DETAILED ACTION

Notice of allowability

The following is an examiner's statement of reasons for allowance:

Updated searches were done for the claims and new limitations. None of the prior art of record remedies the deficiencies in Huang and Ze'ev. Furthermore, the nature of the problem, nor knowledge of a person having ordinary skill in the art, provide any reasonable rationale to combine prior art teachings.

The closest US prior art, Huang, does not disclose, inter alia,

...communication module receives remote controller information...over the Internet...

...a list of a plurality of electronic apparatuses, wherein the list of the plurality of electronic apparatuses includes apparatuses from different manufacturers, different kinds of apparatuses or different models of apparatuses.

The closest non-patent literature is Cole, Standards on the box: BERLIN FAIR ROUND-UP: The Multimedia Home Platform aims to create TV set-top boxes that accept digital programmes from a wide range of sources; [London edition]

Cole, George. **Financial Times**. London (UK): Sep 7, 1999. pg. 14. However, Cole does not disclose, inter alia,

...communication module receives remote controller information...over the Internet...

...a list of a plurality of electronic apparatuses, wherein the list of the plurality of electronic apparatuses includes apparatuses from different manufacturers, different kinds of apparatuses or different models of apparatuses.
